

Ongoing military operations in northern and central parts of Mali have deteriorated the humanitarian situation, which was already of concern before the beginning of the recent armed conflict. Limited access due to security concerns is preventing humanitarian actors from providing an adequate response to the growing needs of the affected populations.

Population displacement to neighboring countries

From 11th to 16th of January around **2,079** refugees from Mali have fled to neighboring countries due to the last conflict events.

Mauritania

of newly arrived Malian refugees in Mauritania

781 refugees have arrived in Mauritania in the last 4 days

Around **90%** of the refugees arrived in Mauritania are women and children

Niger

A total number of **450** Malian refugees have arrived in Niger.

Burkina Faso

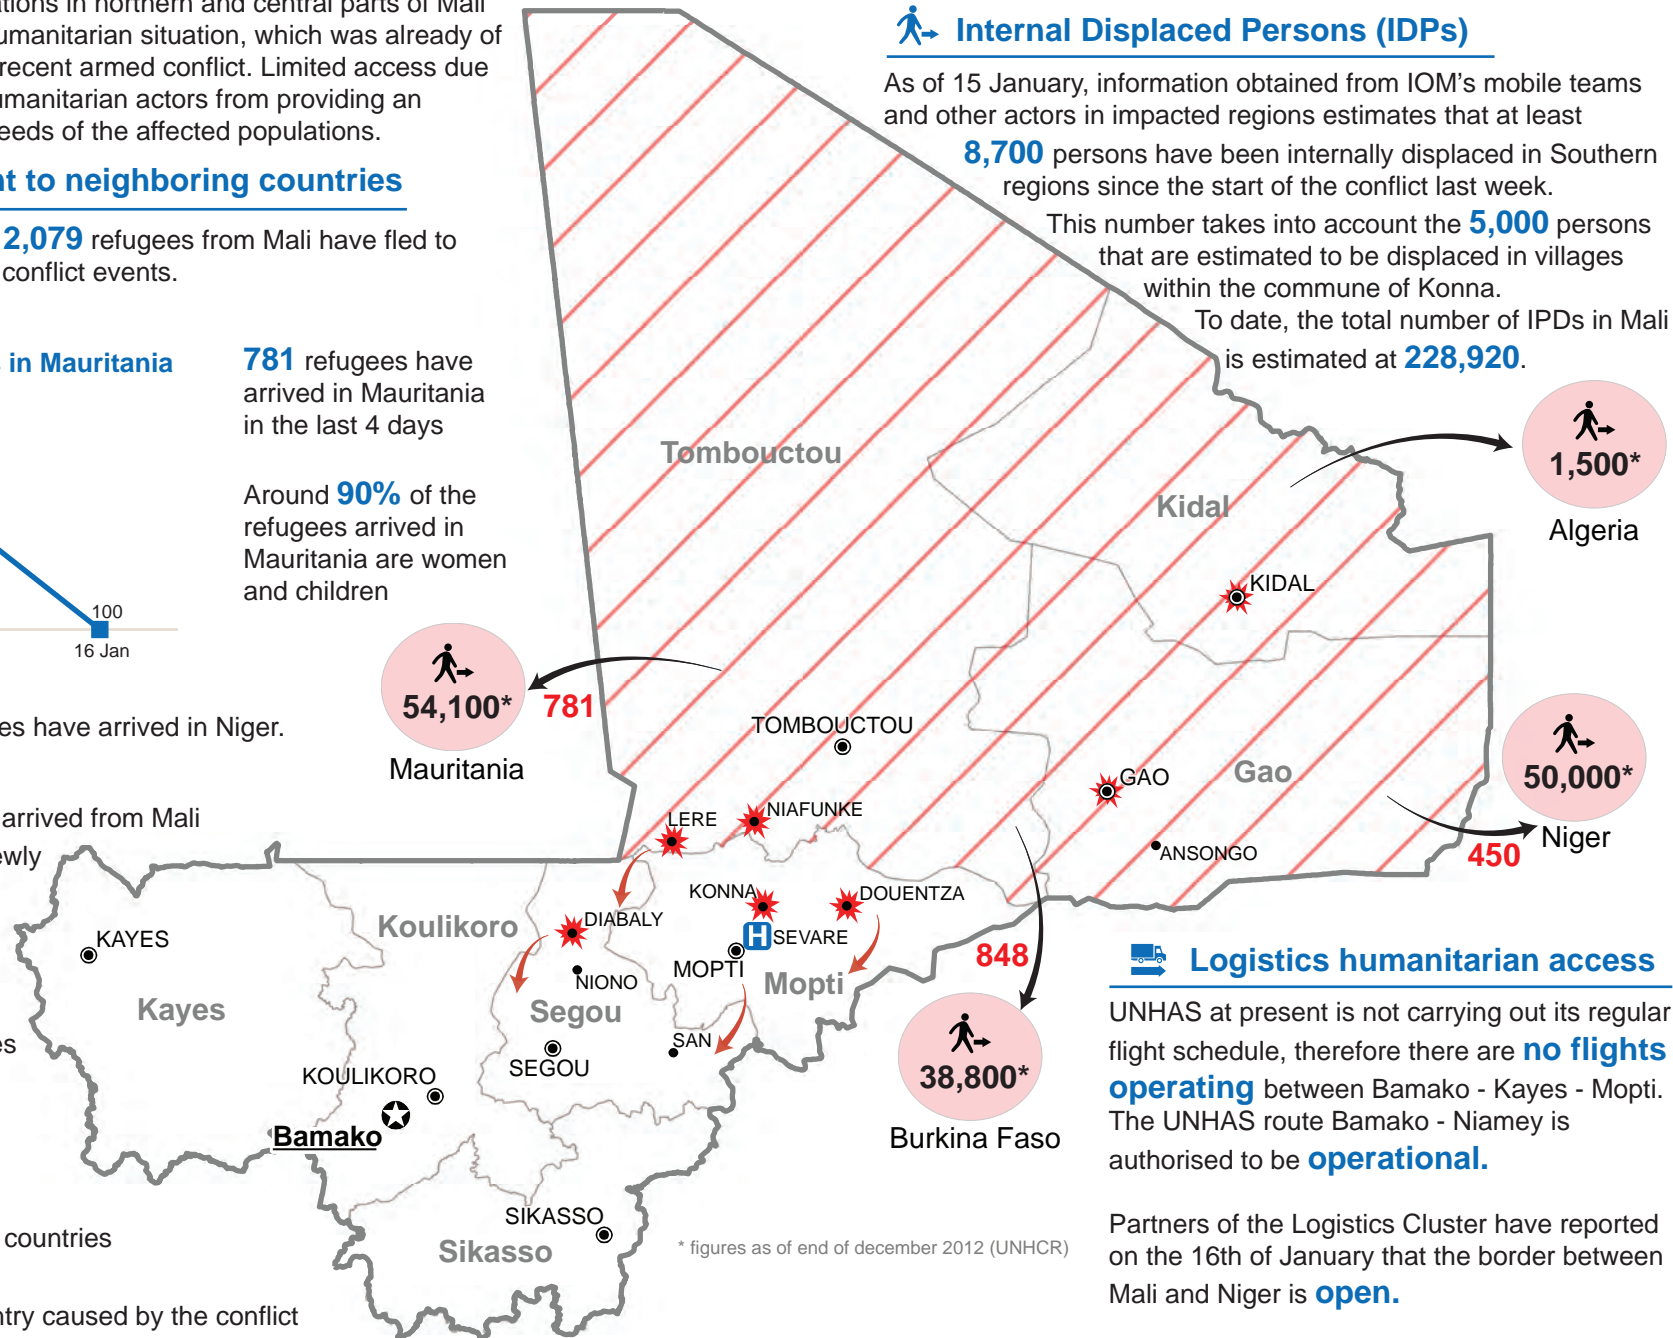

A total number of **848** persons have arrived from Mali to Burkina Faso; out of these **359** newly arrived come from the region of Gao.

Internal Displaced Persons (IDPs)

As of 15 January, information obtained from IOM's mobile teams and other actors in impacted regions estimates that at least **8,700** persons have been internally displaced in Southern regions since the start of the conflict last week.

This number takes into account the **5,000** persons that are estimated to be displaced in villages within the commune of Konna.

To date, the total number of IDPs in Mali is estimated at **228,920**.

Logistics humanitarian access

UNHAS at present is not carrying out its regular flight schedule, therefore there are **no flights operating** between Bamako - Kayes - Mopti. The UNHAS route Bamako - Niamey is authorised to be **operational**.

Partners of the Logistics Cluster have reported on the 16th of January that the border between Mali and Niger is **open**.

Please be aware that the current snapshot that was issued on a daily basis will be produced every two days after this issue.
